## Projects

### Student-Teacher Portal (MERN Stack)

- Developing a student-teacher portal using the MERN stack with a user-friendly interface.
- Enables appointment booking, teacher sign-up, and profile management.
- Features authentication, scheduling, and efficient state management for better engagement.
- Enhances accessibility and streamlines communication between students and teachers.

### YouTube Video Downloader using Streamlit and yt-dlp

- Created a Python-based Streamlit web app for downloading YouTube videos via URL.
- Utilizes yt-dlp library to extract and download the highest quality video.
- Implements a download button to provide direct access to the video after download.
- Saves downloaded videos in a local "downloads" folder.

### Kerala Tourism Mock Website

- Developed a responsive Kerala tourism website mockup using HTML, Bootstrap CSS, and JavaScript.
- Simulated tourist destinations, cultural highlights, and travel information.
- Ensured cross-browser compatibility and optimal performance.
- Integrated interactive elements to enhance user engagement and experience.

## Certifications
