Professional Summary

Proactive Computer Science Engineering student with a strong passion for technology, I have experience in web development and front-end design. With hands-on experience from academic projects, I am dedicated to building innovative solutions and eager to contribute meaningfully to the tech industry.

Education

- **X:** ICSE Board – March 2019
- **XII:** SSC - 2021
- **BTech in Computer Science** - 2021-2025

Personal Information

- Language Proficiency: English, Telugu, Hindi
- Mobility: Willing to relocate anywhere in India & overseas also flexible to work remotely or onsite.

Technical Skills

Skills - HTML, CSS, JavaScript, Python, Java, SQL.

General - Graphic Design, UI-UX Design, Photography/Videography, Editing.

Technical - Software Engineering, SQL, Bootstrap CSS, ReactJS.

Projects

Student-Teacher Portal (MERN Stack)

Developing a comprehensive student-teacher portal using MERN stack. The platform enables students to book appointments with professional teachers and allows teachers to sign up and offer their expertise. Features include user authentication, appointment scheduling, and profile management. Emphasizing a user-friendly interface and efficient state management to enhance user experience and engagement.

YouTube Video Downloader using Streamlit and yt-dlp

A Streamlit web app that allows users to download YouTube videos by entering a URL. It leverages yt-dlp to extract and download the highest quality video. After the download, users can access the video directly through a download button. The app is designed to provide an easy, user-friendly interface for video downloading, storing the videos in a local "downloads" folder.
